Porto Alegre - Rio Grande do Sul

Education

Postgraduate FullStack Development
Postgraduate - Ongoing | PUCRS

Advanced postgraduate program focused on computer-science foundations, client- and server-side technologies (React, Next.js, Node.js, NestJS), relational and NoSQL databases, UI/UX design, software quality and testing, agile development practices, web services, cloud-based architecture, DevOps, software security, and digital innovation methodologies such as Lean Startup and MVP development.

Analysis And Systems Development
Bachelor - 2023 | UNISINOS

Bachelor focused on equipping professionals with the skills to design, develop, and maintain software solutions. The curriculum covers programming languages, databases (relational and NoSQL), software engineering, system analysis, project management, quality assurance, and IT infrastructure. The course also emphasizes the use of agile methodologies and the creation of innovative, efficient, and secure technological solutions.

Experience

Paradise Mobile - Bermuda | Full-Stack Dev
March 2023 - Present

Architected frontend and backend applications, including an onboarding, a midtier and other key external platforms all while collaborating cross-functionally to enhance a CRM system.

Grupo Tiradentes | Full-Stack Dev
Dec 2022 - March 2023

Developed a frontend aggregator that consolidates data from CRM, ERP, and custom APIs, providing a unified interface for operational teams. Supplying useful insights and analytics for the company.

ArcelorMittal Mines Canada | Full-Stack Dev
Sept 2021 - Dec 2022

Built a frontend orchestrator that centralizes user interactions with multiple backend systems. Facilitating organization and automation through a fully operational dashboard.

Meta | Full-Stack Dev
May 2021 - Sept 2021

Developed a data aggregation layer that consolidates information from multiple other internal systems, enhancing the company capability to visualize and act based on trustful reports.

Skills

Tech Stack	Tools	3rd Party	Languages
Node.Js	Git	Cognito	English
ReactJs	Github/Gitlab	MaterialUI	Portuguese
